The Journal of Agricultural and Resource Economics is published by the Western Agricultural Economics Association three times per year, in April, August, and December.

Copyright © 2007 by the Western Agricultural Economics Association.

An article, note, or other material appearing in the Journal of Agricultural and Resource Economics may not be republished in full or in part without permission from the editor.

Editorial Policy

The Journal of Agricultural and Resource Economics seeks to publish creative and scholarly economic studies in agriculture, natural resources, and related issues. Manuscripts dealing with the economics of food and agriculture, natural resources and the environment, human resources, and rural regions are encouraged. The Journal seeks to provide a forum for topics of interest to those performing economic research as well as to those involved with economic policy and education. Submission of comments on articles previously published in the Journal is welcomed.

Editorial Communications

All initial submissions and accompanying editorial correspondence should be submitted electronically to editor David K. Lambert at our JARE internet website. (Refer to Author Guidelines, inside back cover of this journal issue, for full information.)

PRINTED BY THE SHERIDAN PRESS, INC., HANOVER, PA
AUTHOR GUIDELINES FOR
SUBMITTING MANUSCRIPTS TO JARE

Contributors are requested to use the following guidelines in preparing manuscripts for submission. Please note that the JARE accepts only electronic submission submitted in PDF format at http://www.jareonline.org (additional information on submissions is provided below).

1. Author Certifications. Authors submitting manuscripts to the JARE certify that the material in the manuscript (or modification thereof) has not been published, is not being published, and is not currently being considered for publication elsewhere. Authors also certify that the material in the manuscript, to the best of the author’s knowledge, does not infringe upon other published material protected by copyright. Authors also certify they have read and agree to the policy on data access and estimation procedures outlined below.

2. Data Access and Estimation Procedures. Authors are expected to document their data sources, data transformations, models, and estimation procedures as thoroughly as possible. Authors are also expected to make data available at cost for replication purposes for up to five years.

3. Title Page. Provide the title of the manuscript and author(s)’ name(s) centered and in boldface type. At the bottom of the same page, provide professional title(s), institutional affiliation(s), acknowledgments of colleague reviews and assistance, and institutional support as an unnumbered footnote. Do not place the name(s) of the author(s) on the first page of the text. The title page will be removed from the manuscript before it is sent to reviewers.

4. Abstract. Include an abstract of 100 words or less, followed by up to eight key words (or short phrases) listed in alphabetical order.

5. Text. Suggested manuscript length is no more than 25 text pages (not including reference list, tables, and graphics). Double space all text, including the abstract, acknowledgments, footnotes, and references. Use a 12-point Times Roman font and allow 1” margins on all sides. Do not use right-justified margins or end-of-line hyphenation feature.

7. Footnotes. Insert superscript numbers within the text to denote footnotes, numbered consecutively throughout the manuscript. Combine all footnotes on a separate page immediately following the manuscript text.

8. References/Text Citations. In a reference section immediately following the footnotes page, list all works cited in the text, alphabetized by author last name. Refer to current issues of the JARE for format. For within-text citations (either parenthetical or as part of narrative), spell out up to three author last names; use first author’s name followed by “et al.” for works with four or more authors. Include the publication year with all text cites. When citing a direct quotation, include page number(s) from the author’s work.

9. Figures and Tables. Place each figure and table on a separate page at the end of the manuscript. Whenever possible, preferred (but not required) software for figure generation is Microsoft Excel. Do not place figure title/caption within the figure graphics box.

10. Math/Equations. Consecutively number equations throughout the text. When displaying equations, place equation number within parentheses at flush-left margin; center the equation. Use italic typeface for all variables, and use boldface (no italics) for all vectors and matrices.

11. Publication Costs. Authors submitting manuscripts are expected to assume obligation for payment of page charges at the time their manuscripts are published. Current page charges are $60/printed page for WAEA members and $70/printed page for nonmembers.

12. Submissions. All submissions to the Journal of Agricultural and Resource Economics must be submitted electronically to the editorial team. Submissions can be made at the JARE URL: http://www.jareonline.org. To ensure author anonymity, the JARE accepts submission only in PDF format. Each submission will be stripped of author and institutional identification by the editorial team before it is sent to reviewers. Receipt of manuscripts will be acknowledged by e-mail.

DeeVon Bailey

WAEC President, 2007–2008

DeeVon Bailey, Ph.D., is professor and extension marketing specialist in the Department of Economics at Utah State University. Bailey received a B.A. (1980) in Economics and an M.S. (1981) in Agricultural Economics, both from Utah State University. In 1983, he received his Ph.D. in Agricultural Economics from Texas A&M University.

He has been the recipient of awards from the American Agricultural Economics Association (1997 and 2007) and the Western Agricultural Economics Association (1997, 2005, and 2006) for outstanding extension projects. Bailey has received the top research award offered by Utah State University, the D. Wynne Thorne Award (2006) and also USU’s top extension award, the E. G. Peterson Award (2003).

DeeVon Bailey’s research and extension programs have focused on consumer preferences for meat traceability programs and issues relating to implementation of traceability programs in red meat markets. He has conducted research regarding meat traceability in the United States, Canada, Europe, and Japan. Bailey hopes to continue to conduct research relating to food safety and certification issues with a special emphasis on how these issues affect international trade and marketing.

His extension programs in Utah have been recognized by the Friend of Agriculture Award from the Utah Farm Bureau Federation (2001) and the Innovative Program Award (2000), and the Overall Specialist Award (2007) from the USU Extension Specialist Association. His extension programs in recent years have included educational efforts related to animal identification program and market market carnations.

Bailey is currently serving as the interim department head in the Department of Economics at Utah State University and is also serving as agricultural program leader for USU Extension.

Bailey has been an active member of the Western Agricultural Economics Association since 1983. He served as a director for WAEA (2000–2002), three times as a member of the editorial board for the Journal of Agricultural and Resource Economics, and as editor of the JARE (2004–2006).

He has learned through his years of association with the WAEA that its members are dedicated to issues affecting the economic well-being of people living in the West and also the proper stewardship of the land of the West. His goals as President of the Association are to increase memberships and improve the administrative structure of the Association to enhance the efficiency of its functions such as elections, awards, paper submissions, and meeting registration.

Bailey was born and raised in northern Utah and is married to the former Marilyn Drake. They have three children and reside in Logan, Utah. He enjoys activities with his family, especially his three granddaughters, and loves living in the West.
