JOURNAL OF FINANCIAL MANAGEMENT AND ANALYSIS
International Review of Finance
(Half Yearly)

Aims:
It is an established fact that economic development of natural-resource endowed developing countries (especially in the early stages) hinges on transfer of technology, management and capital from developed (industrial) countries through Multinational Corporation (MNCs) parented in developed countries on one hand; and, on the other hand, that there is a big question mark about the appropriateness or inappropriateness of transplantation of the economics of such capital-intensive technologies operating on the transfer pricing and allied techniques to suit host country’s factor endowments, combined with the fact, that the financial statements of MNCs operating in hyper-inflationary and hyper-profit making conditions are misleading if not adjusted for changes in purchasing power.

The Journal – a refereed journal – offers techniques and new concepts backed up by case studies and provides a bridge between financial management theory and practice. The Journal is a useful decision kit for finance practitioners, policymakers and scholars from throughout the world and offers a unique opportunity to contribute your own expertise to develop the financial management science.

Recent issues:
- Focus on ‘Bottom-up’ rural Development vis-à-vis Agricultural Loan Administration: Case Studies
- Nature of Distortions Caused by Inflation
- Forecasting of Australian Short-Term Interest Rates Generated by Time Series Models
- Symptoms of Commercial Banks Insolvency / Failure
- A Financial Management Appraisal of a Sick Agricultural Project
- Forecasting Volatility with Encompassing and Regime Dependent GARCH Models
- Does VaR Estimate have a Unit Root? Application of the Phillips-Perron Test
- Impact of Ownership Structure and Regulation on the Risk-Taking Behaviour of Depository Institutions
- Misuse of Letters of Credit (LCs) Banker Receipts (BRs) and Cheque (Check) Fraud Leads to Financial Distress: Formulation of a New Approach to Ethic Based Financial Statement Analysis

GUIDELINES FOR SUBMISSION OF PAPERS BY AUTHORS

1. **Subjects:** The objective of the Journal is to provide a forum for dissemination and exchange of findings of research on agricultural economics. Purely descriptive material is not appropriate for such a journal. Papers dealing with (i) new developments in research and methods of analysis, or (ii) which apply existing empirical research methods and techniques to new problems or situations, or (iii) which attempt to test new hypotheses/theoretical formulations or modifications of existing theories or policies to explain economic phenomena especially in the Indian context, or (iv) papers based on research done by the authors bringing out new facts or data presented in any analytical frame will be preferred. Younger economists are advised to seek guidance from their seniors in the preparation of the paper for the Journal. A one-page statement indicating the author's own assessment of the importance and relevance of the findings reported in his paper in the context of recent researches would be welcome.

2. **Size of Paper:** In view of the exorbitant increase in the cost of printing, it has become necessary to restrict the length of the papers accepted for publication to 20 (double space) typed pages (of the size 8½ -by-11 inches) including tables and appendices (with margins on all sides of at least 1½ inches). Papers exceeding this size limit will be returned to the authors. The authors may however send along with their papers such "supporting material" as may be of help to the referees in evaluating them. Abstracts not exceeding 100 words should be submitted in duplicate along with the papers. The authors may send their papers in electronic form at the following email address: isae@bom7.vsnl.net.in

3. **Copies:** Two copies of each paper should be submitted along with a processing fee of Rs. 500/- either by M.O. or Demand Draft (US $ 25.00 or £ 15.00) drawn in the name of the Indian Society of Agricultural Economics, to meet partly the postage and other incidental charges.

4. **Author's identification:** To protect the anonymity of authors while referring the Papers for expert opinion on their merits, authors are advised to avoid disclosing their identity in the text and to attach a separate page showing the name(s) and affiliations(s) of the author(s) along with any footnotes containing bibliographical information or acknowledgements.

5. **Mathematical notations:** Only essential mathematical notations may be used; it is prohibitively costly to typeset such notations. All statistical formulae should be neatly typed.

6. **Figures-Charts and Tables:** Professional assistance should be availed of while presenting figures and charts. They should be drawn in black ink which can be easily reproduced by photographic process. Typescript is not suitable for reproduction. Roman numerals may be used for tables.

7. **Footnotes:** Footnotes should be numbered consecutively in plain arabic superscripts.

8. **References and citations:** Only cited works should be included in the reference list. Please follow the style of citations as in previous issues of this Journal.

9. **General:** While sending papers the authors should state that the material has not been published elsewhere or is not being published or being considered for publication elsewhere. It is editorial policy not to consider for publication more than one paper from the same author during a year.

   **Papers which are not found suitable for publication will not be returned unless accompanied by a self-addressed and stamped envelope. No correspondence will be entertained on the papers rejected by the Editorial Board.**

10. **Reprints:** No free reprints of the paper would be given to the author. However an author can obtain a soft copy of the paper in PDF format at Rs.500/- per article.
