“Assuring Caribbean food and nutrition security in the context of climate change”

United States Department of Agriculture, T-STAR Sponsored Invasive Species Symposium

Symposium Theme:

“The Nexus of Invasive Species, Climate Change, and Food Security”

TABLE OF CONTENTS

WELCOME AND BACKGROUND
Dr. Douglas Archer, Dr. Arlington Chesney (Mr. Bruce Lauckner), Dr. Robert Godfrey,
Dr. Hector Santiago, Dr. Tim Momol, and Mr. Barton Clarke......................................................1

OPENING ADDRESS
DOUBLE JEOPARDY—CLIMATE CHANGE AND INVASIVE SPECIES ..............................9
Dr. Ray Huffaker

VOTE OF THANKS......................................................................................................................13
Ms. Florita Kentish
SESSION 1: INVASIVE SPECIES MANAGEMENT: PROGRAMS, POLICIES, AND INSTITUTIONS

CARIBBEAN PLANT HEALTH DIRECTORS (CPHD) FORUM—PAST, PRESENT & FUTURE ................................................................. 16
Ian Gibbs

2011 CARIBBEAN PEST DIAGNOSTIC NETWORK (CPDN) UPDATE AND FIRST DETECTOR E-LEARNING OPPORTUNITIES ................................................................. 21
Tim Momol and Amanda Hodges

ACHIEVEMENTS OF CARIBVET AND THE WAY FORWARD ...................................................... 31
Mark Trotman

ACHIEVEMENTS OF THE GEF/CABI MARINE IAS PROJECT AND THE WAY FORWARD ................................................................. 39
Dayne Budoo

ACHIEVEMENTS OF GREATER CARIBBEAN SAFEGUARDING INITIATIVE AND THE WAY FORWARD ................................................................. 42
Jennifer Lemly

SESSION 2: BANANAS: MAJOR BANANA DISEASES

BLACK LEAF STREAK AND EUMUSAE LEAFSPOT: TWO DESTRUCTIVE AND INVASIVE LEAFSPOT DISEASES OF BANANA ................................................................. 49
Catherine Abadie, Marie Zapater, Stephanie Robert, Virginie Ravigne, Francois Bonnot, and Jean Carlier

RE-EMERGENCE OF PANAMA DISEASE (FUSARIUM WILT) AND THE SPECIAL THREAT POSED BY TROPICAL RACE 4 ................................................................. 58
Randy Ploetz

MAJOR VIRUS DISEASES THAT THREATEN BANANA PRODUCTION IN THE CARIBBEAN REGION ................................................................. 67
Ben Lockhart

RECENT RESEARCH FINDINGS ON MOKO DISEASE AND PROSPECTS FOR MITIGATING ITS IMPACT ON THE BANANA INDUSTRY IN THE CARIBBEAN REGION ................................................................. 74
Janet Conie and Deborah Henry-Myers
SESSION 3: MARINE AND FRESHWATER INVASIVE SPECIES OF IMPORTANCE TO THE CARIBBEAN

THE BAHAMIAN GOVERNMENT APPROACH TO LIONFISH CONTROL .......................... 78
Lakeshia Anderson

TESTING THE FISH INVASIVENESS SCORING KIT (FISK) AS A SCREENING TOOL FOR FLORIDA ................................................................. 85
Jeffrey Hill

ACCURACY OF A MODIFIED NEW ZEALAND AQUATIC WEED RISK ASSESSMENT FOR THE UNITED STATES ..................................................... 91
Alison Higgins

TRADE IN PET, AQUARIUM, AND TERRARIUM SPECIES AS A SIGNIFICANT SOURCE OF INVASIVE ALIEN SPECIES IN THE WIDER CARIBBEAN REGION ....... 99
Ulrike Krauss

SESSION 4: RESEARCH ADVANCES IN COPING WITH EMERGING INVASIVE SPECIES IN THE GREATER CARIBBEAN

IMPROVED DISEASE DIAGNOSIS: DEVELOPMENT OF A NOVEL MOLECULAR TECHNIQUE FOR THE DETECTION AND IDENTIFICATION OF PLANT PATHOGENS IN HOST TISSUE ........................................................................ 109
Aaron Palmateer, Robert Cating, Tara Tarnowski, Patricia Lopez, and Estevez de Jensen

INVASIVE SCALES AND WHITEFLIES IN THE LANDSCAPE—A SERIOUS THREAT TO THE TOURIST INDUSTRY ................................................................. 121
Catherine Mannion

POPULATION DYNAMICS AND ECOLOGY OF AMBLYOMMA TICK (AMBLYOMMA VARIEGATUM) .................................................................................. 132
Laure Bournez, Jennifer Pradel, Herbert Hackshaw, and Thierry Lefrancois

NEWLY EMERGING DISEASE THREAT TO PALMS IN FLORIDA ............................................. 138
Nigel Harrison, Monica Elliott, Ericka Helmick, and Robert Davis

IMPACTS OF RECENTLY EMERGED IAS AND MAJOR THREATS TO THE DOMINICAN AGRICULTURE ........................................................................ 146
Colmar Serra, Xiomara Cayetano, Andrea Félix, Mileida Ferreira, Socorro García, Graciela Godoy, Máximo Halpay, Reina Teresa Martínez, Rosa Maria Méndez, Juan de Dios Moya, Lucia Silverio, and Luis Matos

CLOSING SESSION
Dr. Christine Waddill
