

# Analysis of Strategic Marketing Decisions for Organic Agricultural Producers: A Case Study

---

**Dr. Jon C. Phillips,  
Assistant Professor**

Dept. of Food Marketing and Agribusiness Management  
California State Polytechnic University - Pomona

**Dr. Chris Peterson, Professor**

Dept. of Agricultural Economics  
Michigan State University, East Lansing, MI

**Presented at the 2003 WCC-72  
Meetings in Las Vegas, NV**

# Background and Overview

---

- **Group of organic agricultural producers received a grant**
- **Purpose: feasibility study about forming a cooperative to jointly market products**
- **Opportunity: test framework**
- **Outline: methods, location and grower information, distribution alternatives**

# Methods

---

- **Secondary data search**
- **Key industry informant interviews**
- **Presentation of preliminary results**
- **Face-to-face, semi-structured interviews with group members to assess resources**
- **Presentation of final results**

# Demographic highlights of area

---

# Characteristics/Resources of the Grower Group

---

- **Seven members**
- **Diversity, within and between farms**
- **Desire to concentrate on production**
- **Well-educated**
- **Need for planning and coordination**

# Strategic Alternatives

---

- **“Go” or “no-go”**
- **If “go,” then select distribution channel**
  - **Farm markets (i.e., roadside stands)**
  - **Farmers’ markets**
  - **Distributors**
  - **Retailers**
  - **Restaurants and institutions**
  - **Processors**

# Farm markets (roadside stands): Advantages

---

- **Growers can provide info to consumers**
- **Relatively easy entry**
- **Growers receive full consumer price**
- **Transportation and commuting time**
- **Family involvement**
- **Control over days/hours and display**

# Farm markets (roadside stands): Disadvantages

---

- **Success depends on quantity/ quality of traffic**
- **Limited to one location**
- **Limited selection of produce**
- **Investment in fixtures**
- **Human resources for staffing**

# Farmers' markets: Advantages

---

- **SAME FIRST THREE ITEMS AS FARM MARKETS** (i.e. roadside stands)
- **More customer traffic**
- **Advantageous consumer preferences**
- **Growers can pool their products and sales efforts**

# Farmers' markets: Disadvantages

---

- **Transportation costs**
- **Space rental**
- **Limited days and hours**
- **Potential to compare prices leads to competitiveness**

# Distributors

---

## ○ Advantages

- Higher potential volume
- Some marketing functions provided

## ○ Disadvantages

- Incremental requirements and costs
- Displacing existing suppliers
- Minimum volume requirement
- Wholesale price

# Retailers: Advantages

---

- **Higher potential volume**
- **Certain investments and expenses avoided**
- **Access to customers and marketing skills**

# Retailers: Disadvantages

---

- **Incremental requirements and costs**
- **Displacing existing suppliers**
- **Delivery convenient to retailer**
- **Some retailers only buy through wholesalers**
- **Building trust and relationships**

# Restaurants (especially gourmet)

---

## ○ Advantages

- **May accept unusual varieties and small quantities**
- **Demand high-quality, local, in-season produce**
- **Appearance less important**

## ○ Disadvantages

- **Delivery time and costs**
- **Delayed payment of accounts**

# Institutions (vs. restaurants)

---

- **Advantage: Could allow for larger volume.**
- **Disadvantage: More pressure to keep costs down.**

# Processors

---

## ○ Advantages

- Higher potential volume
- Purchase agreement prior to planting
- Appearance less important

## ○ Disadvantages

- Risk of non-payment and of the processor closing or changing product lines
- Transportation costs
- Marketing efforts required

# Epilogue

---

- **What the growers did:**
  - **Develop gradually**
  - **Farmers' market**
  - **Supplemented product line**
